

# New Product Information

## Cusco Zero Wagon for Nissan Elgrand (E52=FF,4WD) will be released

\*1

The coil over is designed based on standard suspension and additionally brought high quality taste. It prevents scrappy feeling which is likely to feel on low-speed driving. For second and third low seat, it's designed to give feeling as enjoyable driving. It makes less pressure from ground or uncomfortable roll on driving, so you can enjoy even long-distance driving.

It's applied overall length system for height adjusting. It offers wide range of adjusting which is preferable for Low-down fan.

There are two type; Super Low and Low are available on rear adjusting. You can taste both height with using Rear-spring (optional parts). (Only for FF. For 4WD, it's under developing)

Height adjustable areas are worked special coating for anti-rusting.
