

New Product Information

Rear Additional Stabi-bar for Toyota Hiace(200 series)

Character of Rear Stabi-bar

-The Rear additional Stabi-bar(for a car which doesn't fit Sway-bar) for Hi-ace is now available. This is the kit to fit on hosing by special fitting pipe and joining to Cusco Sway bar.

- The special pipe made by same material with roll cage to give plenty of strength. The minimum ground clearance will not differ with fitting this product.

-It saves shaky movement and sway on driving at motor way or winding road which results stable driving. With saving amount of roll, straight running stability is improved.

Model Toyota Hiace
