

New Product Information

Applicability with the latest Toyota Yaris(NCP131)

[Model] Toyota Vitz/Yaris
 Series NCP131 Grade 1.5RS
 T/M 5MT

[L.S.D. Type-RS/Type-MZ]

An indispensable item for competition driving, Cusco L.S.D. for Toyota Yaris(NCP131) is now available.

Character of L.S.D.

There are two type of L.S.D.; Type-RS is originally designed to generate initial torque on coil-spring while Type-MZ generate the initial torque from outside by cone plate.

Preparing specific setting is available on ordering. You can design own spec as like town use to competition by initial torque setting or combination of clutch plates. Please enquire our staff.

[Metal clutch set]

[Copper set]

Character of Copper single

It consists of sporty performance and half clutch performance of standard level. Good on street driving.

Character of Metal disc

It's strengthened clutch which has great ability of wearing and heat resistant. Good on street driving and competition.
