Compact Series
 SUSPENSION COILOVERS

Compact S series suspension coilovers are designed exclusively for those who want to lower their vehicles while performing at an optimal level on the street. These are the most affordable and effective suspension units available today.

STREET HIGHWAY WINDING ROAD CIRCUIT

Compact Series
 SUSPENSION COILOVERS

The ZERO 1 suspension coilover system designed for compact cars! This unit is for compact car enthusiasts who prefer sport performance out of their vehicles while still maintaining great comfort and stance. Full height adjustable - the vehicle height can be adjusted without changing the spring preload setting.

STREET HIGHWAY WINDING ROAD CIRCUIT

PROGRESSIVE EQUIPMENT 

Compact Series
 SUSPENSION COILOVERS

The ZERO 2 is the most versatile suspension coilover, used for the street to full track ready specification. The damper and full height adjustability enables the suspension to be set to adapt to virtually any given environment and condition.

STREET HIGHWAY WINDING ROAD CIRCUIT

40-Step damping force adjustable – Coil-over Suspension Kit

The Street Spec A series suspension coilover system is designed to provide a lowered vehicle ride height while maintaining comfort for daily driven street cars. The newly developed 40 way damper adjustable shock absorber system enables a wide range of suspension setting suitable for virtually any given road condition. *8 way rear dampers on selected models
