

STREET ZERO S

New

The Street Zero S series suspension coilover system is designed to provide a lowered vehicle ride height while maintaining comfort for daily driven street cars. The entire system is made as an entry-level street coilover where the budget-minded enthusiast will get the very best suspension at the lowest price.

The newly developed twin tube shock absorber features a virtually noiseless design due to its internal low compression gas. A new base valve design enables a comfortable and mild ride that adapts to almost any street condition, set at the most ideal damper rate from factory. *8 way rear dampers on selected models

- Low compression twin-tube shock absorber w/ redesigned base valve
- Full height adjustable structure, fixed damper set at most ideal rate
- Precision cut shock case thread with special coating
- Quiet operation
- Ribbed lower bracket made with different metal according to each vehicle.
- CUSCO's most affordable street spec suspension system

MADE IN JAPAN

LOW-NOISE RUBBER SEAT

VEHICLE SPECIFIC BUMP RUBBER STOP
(Under dust boot)

DUST BOOT

NOISELESS OPERATION
(Overall design targeted for quiet operation)

LONG LASTING SPRINGS
(Over 200kgf/mm² of tensile strength)
