

# STREET ZERO S

New

The Street Zero S series suspension coilover system is designed to provide a lowered vehicle ride height while maintaining comfort for daily driven street cars. The entire system is made as an entry-level street coilover where the budget-minded enthusiast will get the very best suspension at the lowest price.

The newly developed twin tube shock absorber features a virtually noiseless design due to its internal low compression gas. A new base valve design enables a comfortable and mild ride that adapts to almost any street condition, set at the most ideal damper rate from factory. \*8 way rear dampers on selected models

Street Highway Winding road

MADE IN JAPAN

- Low compression twin-tube shock absorber w/ redesigned base valve
- Full height adjustable structure, fixed damper set at most ideal rate
- Precision cut shock case thread with special coating
- Quiet operation
- Ribbed lower bracket made with different metal according to each vehicle.
- CUSCO's most affordable street spec suspension system

LOW-NOISE RUBBER SEAT

VEHICLE SPECIFIC BUMP RUBBER STOP  
(Under dust boot)

DUST BOOT

NOISELESS OPERATION  
(Overall design targeted for quiet operation)

LONG LASTING SPRINGS  
(Over 200kgf/mm<sup>2</sup> of tensile strength)

POLYMER THRUST SEAT

DURABLE ALUMINUM ALLOY  
LOWER SEAT & LOCK NUT

HIGH STRENGTH THREADED CASING  
(Special coating tested over 500hrs of harsh elements)

FULL HEIGHT ADJUSTABLE SYSTEM  
(Spring preload & shock stroke not affected by vehicle height change)  
Vehicle can be safely lowered without sacrificing comfort

RIBBED KNUCKLE BRACKET  
Specific metals chosen for each unique vehicle requirements  
Long lasting design emphasized for this high stress load area

Pillowball Upper Mount  
Equipped Versions Available

8Way rear damper adjust available  
on some models

FULL HEIGHT ADJUST  
(via fully threaded shock)

HEIGHT ADJUST  
(via spring seat)
