Reinforcing body part for new Suzuki Wagon R stingray(MH23S) has been released

Front tower bar type-OS

Front lower arm bar Ver.2

<<Strut tower bar>>

Its shaft is made by lightweight aluminium with oval shape.

- it improves body strength which effect on performance of suspension.

<<Lower arm bar>>

It improves body strength which prevent shift of suspension alignment.

It connects joints of both side of lower arm with some points which effect improving reinforcing on horizontal/vertical direction.
