- Upper Arm Rear × 1 pair
- Toe Control Rod × 1 pair
- Lower Arm × 1 pair
- Bolts, nuts, complete set of accessories

Full design for each part including adjustable pillow ball arm + billet aluminum upright.

Suspension system developed for full-scale drift competition vehicles.

### Drift Angle Kit (Front)

- ◆ High-strength lightweight billet aluminum upright and lower arm.
- ◆ Similar to the upright of a GT race car, the shim adjustment mechanism is adopted to enable the reproducibility of the settings.
- ◆ By using pillow ball for each part, it suppresses alignment changes, allows high controllability and quick movement of the vehicle.
- ◆ Optimizes the geometry such as roll center, trail and kingpin offset.
- ◆ Adjustable arm which allows free alignment adjustment.
- ◆ Maximum tire turning angle 65° or more.
- ◆ The turning angle can be adjusted by shims for both parallel and ackermann steering geometry.
- ◆ Equipped with an adjustable stopper to prevent reverse joint movement.
- ◆ Designed suitable for genuine Nissan Silvia S15 calipers and discs.
- ◆ Genuine hub bearings can be used.
- ◆ Both left and right parts are interchangeable as it is a symmetrical design.
- ※ Steering rack needs to be moved forward when installing. (About 35mm).

### Drift Angle Kit (Rear)

- ◆ High-strength lightweight billet aluminum upright.
- ◆ By using pillow ball for each part, it suppresses alignment changes, allows high controllability and quick movement of the vehicle.
- ◆ Adjustable arm which allows free alignment adjustment.
- ◆ The bump steer can be optimized by using shim adjustments.
- ◆ The symmetrical design upright also supports twin calipers.
- ◆ To optimize the roll axis, it is best to use as a set with the fronts.
- ◆ Designed suitable for genuine Nissan Silvia S15 calipers and discs.
- ◆ Genuine hub bearings can be used.
- ◆ Both left and right parts are interchangeable as it is a symmetrical upright design.

Part Name		Part Number	Price (Excl. tax)	JAN Code	Release Date
Drift Angle Kit	Front	223 463 F	¥385,000 ( ¥350,000 )	4996338024947	NOW ON SALE
